PUBLIC DEMONSTRATION AND TRAINING OF THE NEW ULS ONLINE FILING INTERFACE WILL TAKE PLACE DECEMBER 4, 2003.

A Public Demonstration and Training will present the newly redesigned Online Filing environment for FCC Form 601 (Simple Purpose applications) and Form 605 (all applications) at FCC headquarters in Washington, DC. The public is encouraged to attend.

As part of a continuing effort to improve the Universal Licensing System (ULS), the Wireless Telecommunications Bureau (WTB) announces the completion of phase one of a multi-phased process to redesign ULS Online Filing. WTB will conduct a public demonstration and training of the new software for Online Filing in Washington, DC, on Wednesday, December 4, 2003, 10:30A.M.-12:00 P.M. The demonstration will take place in the South Conference Room, Room 5-B516, on the Fifth Floor of the Portals II building, 445 Twelfth Street, S. W. We request attendees pre-register for the event by December 3, 2003.

Please Note: Once the final deployment date for the new software has been determined, we will release a PN. This PN will provide technical information regarding the system during the changeover to the new interface.

New Online Filing Environment

The new ULS Online Filing environment, called the ULS License Manager, has been designed to simplify the filing process and provide convenience for ULS customers. License Manager provides an enhanced filing environment for working with wireless applications and allows for simplified filing of applications in question and answer format through a new application wizard. License Manager also enables customers to submit filings without having to remember application "purposes," and it allows different types of filings to be submitted simultaneously. Phase one of the redesign project includes the following:

- Deployment of the new manager and new filing interface for all application purposes for radio services that complete Form 605 (main form only).
- Deployment of the new manager and the new filing interface for radio services that complete Form 601 (main form only) for the following application purposes: Renewal Only, Cancel, Withdrawal, Duplicate, and Administrative Update.

Note: There has been no change to the data required on Forms 605/601.

If you are interested in attending the demonstration/training, please contact Drew Eisenhower by email, deisenha@fcc.gov, or by phone, 202-513-4534. Please provide your name, firm, telephone number, and email address. We will confirm your registration by return email.
